## FAQ

### How soon will I have access to my presentations?

After you place your order, you will receive an email which includes your login information to access your Playback Now account. Once you log in, you will have immediate access to stream or download your recordings. You MUST always log in to your account to have access. The Works Package Flash Drive will be shipped within five business days of receipt of order.

### What devices can access my presentations?

You may STREAM your content on any computer with internet access including all mobile devices. You may DOWNLOAD your content directly to your computer AND Android devices. Apple devices require all downloads to be copied into iTunes and then transferred to Apple mobile devices (iPod, iPad, iPhone).

### What is the difference between streaming and downloading?

Both streaming and downloading require internet access. Streaming-only requires constant internet access to receive the presentations. Downloaded files are stored on your device for easy access anytime-anywhere. And you own the files!

### Can I download the entire packages?

You may download every presentation one-at-a-time. The USB Flash Drive in the Works Package makes moving all the presentations easy with a single copy and paste.

### What are other advantages to the USB Flash Drive?

The USB Flash Drive includes BOTH the Audio MP3 files and Video MP4 files for easy transfer. The Flash Drive is menu based so all you need to do is plug and play.

### How long do I have access to my content?

The Fast Pass gives you 6 months and the Season Pass gives you 12 months access. One easy way to always keep your content is to renew your Season Pass annually which will give you access to the most recent conference. Your program content never expires!

### What is MP4 Video?

Our MP4 Video provides the presenter PowerPoint synced with the presenter audio for a virtual re-creation of the presentation. Unless noted, the file will NOT include the video of the actual presenter; just the PowerPoint.

### Can I substitute discs instead of the Flash Drive?

Yes! For a nominal charge, you may substitute discs for the flash drive in the Works Package. Substitute option is available online; or call 800-241-7785 Ext 2.
